

Sign-In Procedure

The sign-in procedure insures confidentiality and is a matter of convenience. Students seem very positive about the change and we're glad it's working out so well. The system also has the added benefit of allowing us to systematically collect data regarding utilization of the Health Center. While we don't collect any information that identifies individual students in order to insure their confidentiality, we are able to know the numbers of students using the Health Center at various times of the day. When you enter the Health Center, at the counter swipe your UID card and follow the prompts on the computer screen, then have a seat.
